## Court No. 6

Civil Misc, writ Petition No. 10934 of 1990  
Shyamalendu Bhattacharya v. state of U.P. and other

Hon'ble S.H.A.Raza,J

The ground of the petitioner to challenge the order of removal, passed against him is two folds: firstly, that the petitioner was not given any opportunity either to cross-examine the witnesses or to produce his defence, secondly, that the copy of the enquiry report was not furnished to him as a result of which he could not make any representation to the Disciplinary Authority before the impugned order of removal was passed. In the case Union of India and others v. Mohd. Ramzan Khan 1991(1) Service Law Reporter page 159 Hon'ble the Supreme Court indicated as under:

"Deletion of the second opportunity from the scheme of Act.311(2) of the Constitution has nothing to do with providing of a copy of the report to the delinquent in the matter of making his representation. Even though the second stage of the enquiry in Act.311(2) has been abolished by amendment, the delinquent is still entitled to represent against the conclusion of the enquiry officer holding that the charges or some of the charges are established and holding the delinquent guilty of such charges. For doing away with the effect of the enquiry report or to meet the recommendations of the enquiry officer in the matter of imposition of punishment, furnishing a copy of the report becomes necessary and to have the proceeding completed by using some material behind the back of the delinquent is a position not countenanced by fair procedure. While by law application of the natural justice could be totally ruled out or truncated, nothing has been done here which could be taken as keeping natural justice out of the proceeding and the series of pronouncements of this court making rules of natural justice applicable to such an enquiry or not affected by the 42nd amendment. We therefore come to the conclusion that supply of a copy of the enquiry report along with recommendations, if any, in the matter of proposed punishment to be inflicted would be within the rule of natural justice and the delinquent would, therefore, be entitled to the supply of a copy thereof. The 42nd amendment has not brought about any change in this position."

No counter-affidavit has been filed by the opposite parties, although they were given sufficient time. Hence there is no alternative for this court except to accept the averments, made in the writ petition. In view of the fact that the petitioner was not furnished any copy of the enquiry report, the order of removal, passed against him is violative of principles of natural justice. As this writ petition stands allowed only on this point, the other grounds which have been agitated by the petitioner need not be gone into. However, the petitioner may raise the aforesaid ground, i.e., denial of right to cross-examine the witnesses and production of witnesses in his defence, before the Disciplinary Authority and there is no reason as to why the petitioner would not be provided that opportunity before the enquiry office authority. In view of what has been indicated here in above the writ petition succeeds. A writ in the nature of certiorari is issued quashing the impugned order of removal of the petitioner from services, contained in annexure no.3 to writ petition. The petitioner would be entitled to the consequential benefits arising from the quashing of the order of removal. However, it will open for the opposite parties to revive the proceedings from the stage of examination of witnesses, if no opportunity was

give to the petitioner to cross-examine the witnesses and produce evidence and if the same was given to the petitioner, it could be from the stage of furnishing a copy of the enquiry report to petitioner.

162 No money should be withdrawn from the Treasury unless it to drawn money on contingent bills for the payment of the valu of articles before they are supplied for the prosecution of works, the completion of which is likely to take considerable time or in order to prevent the lapse of appropriation. In special cases when an advance payment is found to be necessary (e.g. when a large order for furniture, stores or clothing is placed on behalf of the Government), a separate temporary advacne should be drawn for the purpose under the rules for the grant of miscellaneous advances but such advances may be made only to reputable firms and on the distinct understanding that any loss resulting therfrom will be made good by the Government sevant concerned.

Note-For advances and payments on account in connection with civil work, See paragraph 312.

**Hon'ble s.s. Mathur,J.**

In this bunch of 16 petitions the common question requiring consideration pertains to the age of superannuation of Lekhpals. The State seeks to retire them on attaining the age of 58 years. The petitioners claim is that they are entitled to continue till they attain the age of 60 years.

For claiming 60 years as the age of their superannuation the petitioners rely upon Government orders where under posts have been categorised as Group-A, Group-B, Group-C and Group-D posts and also on the amended Fundamental Rule 56 where under the age of retirement for holders of Group-D posts appointed prior to 5th November 1985 has been fixed as 60 years. The petitioners assert that in view of their pay-scale they belong to Group-D posts and, therefore, under the amended Fundamental Rule 56 their age of superannuation would be 60 years.

The undisputed facts are as follows:-

In pursuance of the recommendations of first pay commission, Government order dated 4th September 1976 was issued by the State Government where by State employees were categorised in to four Groups-`A', `B', `C' and `D'. This categorisation was made on the basis of the maximum and minimum of the pay scale. Subsequently second pay commission was constituted. In pursuance of its recommendations Government Order dated 27th February 1982 was issued. In this Government Order also classification of state employees into Groups `A', `B', `C' and `D' was maintained. Groups `A', `B' and `C' cover Gazetted posts and Group-D covers non-Gazetted posts. The post of Lekhpal is non-Gazetted. Therefore, Lekhpals would fall under Group-D.

prior to 28th July 1987 relevant portion of Fundamental Rule 56 read as follows:-

"56. (a) Except as otherwise provided in other clauses of this rule, the date of compulsory retirement of a Government servant, other than a Government servant in inferior service, is the date on which he attains the age of 58 years. He may be retained in service after the date of compulsory retirement with the sanction of the Government on public grounds, which must be recorded in writing, but he must not be retained after the age of 60 years except in very special circumstances.

(b) The date of compulsory retirement of a Government servant in inferior service is the date on which he attains the age of 60 years. He must not be retained in service after that date, except in very special circumstances and with sanction of the Government.

(c) Notwithstanding anything contained in clause (a) or clause (b) the appointing authority may, at any time, by notice to any Government servant (whether permanent or temporary), without assigning any reason, require him to retire after he attains the age of fifty years or such Government servant may, by notice to the appointing authority, voluntarily retire at any time after attaining the age of forty five years or after he has completed qualifying service for twenty years.

(d) The period of such notice shall be three months:

Provided that -

(i) any such Government servant may be ordered by the appointing authority, without such notice or by a shorter notice, to be retired forthwith at any time after attaining the age of fifty years, and on such retirement the Government servant shall be entitled to claim a sum equivalent to the amount of his pay plus allowances, if any, for the period of the notice or, as the case may be, for the period by which such notice falls short of three months, at the same rates at which he was drawing immediately before his retirement;

(ii) It shall be open to the appointing authority to allow a Government servant to retire without any notice or by a shorter notice without requiring the Government servant to pay any penalty in lieu of notice:

provided further that such notice given by the Government servant against whom a disciplinary proceeding is pending or contemplated, shall be effective only if it is accepted by the appointing authority, provided that in the case of a contemplated disciplinary proceeding the Government servant shall be informed before the expiry, of his notice that it has not been accepted:

Provided also that the notice once given by a Government servant under clause (c) seeking voluntary retirement shall not be withdrawn by him except with the permission of the appointing authority.

By Notification dated 28th July 1987 Fundamental Rule 56 (a) was amended. The amended provision reads as follows:-

"56(a) Except as otherwise provided in other clauses of this rule, every Government servant shall retire from service on the afternoon of the last day of the month in which he attains the age of fifty-eight years. He may be retained in service after the date of retirement on superannuation, with the sanction of the Government, on public grounds, which must be recorded in writing, but he must not be retained after the age of 60 years except in very special circumstances:

Provided that a Government servant, recruited before November 5, 1985 and holding the Group 'D' post shall retire from service on the afternoon of the month in which he attains the age of 60 (sixty) years.

Explanation: The above proviso shall not be applicable in those cases where the status of a post/posts referred to in the above proviso, has been changed after February 27, 1982 and categorized in higher Group of post/posts."

There is no change in clauses (b), (c) and (d) reproduced above.

Under the above provision uniform age of retirement viz. 58 years, has been fixed for all state Government employees. This is the general rule contained in Rule 56 (a) but to this general rule exception has been made and this exception covers only a limited class of Group-D employees. This limited class covers those who were appointed on or before 5th November 1985. The age of retirement for this limited class is fixed as 60 years. All the petitioners were appointed prior to 5th November 1985 and, therefore, if Fundamental Rule 56(a) applies to them their normal age of retirement would be 60 years.

In the year 1958 the state Government promulgated the U.P. Lekhpal Service Rules, 1958 for short Lekhpal Rules. Rule 31 of these rules prescribes the age of retirement. Prior to 25th August 1967 the rule read as follows:-

" The age of retirement in the case of Lekhpals governed by conditions laid down in sub-paragraph 3(a), (b) and (c) of para 2 of G.O. no. 4434/I-B, dated April 27, 1953, shall be 60 years and in the case of other members of the service shall be the date on which he attains the age of 58 years. He may be retained in service after the date of compulsory retirement with the sanction of the State Government on public grounds which may be recorded in writing but he shall not be retained after the age of 60 years except under very special circumstances.

By notification dated 25th August 1967 the above rule was amended and the amended rule reads as follows:-

" The age of retirement in the case of Lekhpals governed by conditions laid down in sub-paragraph 3(a), (b) and (c) of para 2 of G.O. no. 4434/I-B, dated April 27, 1953, shall be 60 years and in the case of other members of the service shall be the date on which he attains the age of 58 years. He may be retained in service after the date of compulsory retirement with the sanction of the State Government on public grounds which may be recorded in writing, but he shall not be retained after the age of 60 years except under very special circumstances:

Provided that -

(i) the appointing authority may, after giving at least three months' previous notice in writing to the Lekhpal without assigning any reason retire him from service on the date on which he attains the age of 55 years or on any date thereafter to be specified in the notice;

(ii) a Lekhpal may, after giving at least three months' previous notice in writing to the appointing authority, voluntarily retire from service on the date on which he attains the age of 55 years or on any date thereafter to be specified in the notice:

Provided further that -

(i) the notice of voluntary retirement given under the first proviso by a Lekhpal against whom a disciplinary proceeding is pending or contemplated, shall be effective only if it is accepted by the appointing authority subject to the condition that in case of contemplated disciplinary proceeding, the Lekhpal is so informed before the expiry of the notice;

(ii) the notice once given by a Lekhpal under the first proviso shall not be withdrawn by him except with the permission of the appointing authority. "

Under the unamended rule 31 as well as the amended rule the normal age of retirement is 58 years. An exception has been made in favour of a class of Lekhpals. These Lekhpals are those who are governed by the conditions laid down in paragraph-2 and in clauses (a), (b) and (c) of paragraph 3 of Government order dated 27th April 1953. For such Lekhpals the age of retirement is 60 years.

From the above survey of rules and Government orders it would appear that both Fundamental Rule 56(a) and Rule 31 of Lekhpal Service Rules prescribe two ages of superannuation, 58 years and 60 years. The situation in which the age of retirement would be 58 years or 60 years is different in each rule. The question now requiring consideration is whether the petitioners will be governed by the age of retirement prescribed in Fundamental Rule 56 (a) or that prescribed in rule 31.

Fundamental Rule 56 (a) and the Lekhpal service Rules both have been framed under the proviso to Article 309 of the constitution. Both, therefore, have statutory force. Fundamental Rule 56 (a) covers state Services in general and Lekhpal service Rules cover a particular service, namely Lekhpal service. Now it is settled law that specific excludes the general. Therefore, Lekhpal Rules will prevail over Fundamental Rule 56 (a) so far as the age of superannuation is concerned. Consequently the petitioners will be governed by the age of retirement prescribed in Rule 31 except those covered by Government Order dated 27th April 1953, irrespective of the fact whether they belong to Group 'D' of State Government Service or to any other group of state Government service.

In some Writ Petitions validity of Government Orders classifying Government employees into four categories on the basis of their pay-scales has been challenged on the ground of being arbitrary and discriminatory and, therefore, violative of Article 14. Government Orders, as held hereinabove, it is not necessary to examine the validity of these Government Orders. It may, however, be pointed out that in most of the Writ Petitions, the said Government Orders have been relied upon for claiming that Lekhpals belong to category 'D' of State Government Service and, therefore, they would be covered by 60 years' rule of superannuation.

In none of the Writ Petitions benefit of Government Order dated 27th April, 1953 referred to in Rule 31 of Lekhpal Rules has been claimed. In all the petitions 60 years has been pleaded as the age of superannuation on the basis that the petitioners belong to group 'D' of State Government Service. In Writ Petition No. 4190 (S/S) of 1991, age of 60 years is pleaded on the basis of belonging to Group 'D' post as well as on the basis of Rule 31 of the Lekhpal Service Rules. There is, however, no assertion that the petitioner is covered by the conditions laid down in sub-paragraph 3 (a), (b) and (c) of Government Order dated 27th April, 1953. As already noticed, only those Lekhpals retire under Rule 31 on attaining the age of 60 years, who are governed by the said conditions laid down in Government Order dated 27th April, 1953.

In view of the above, all the writ petitions fail and are hereby dismissed, but without any order as to costs. Interim orders shall stand vacated.

Hon'ble S.C. Mathur, J.

In this bunch of 16 petitions the common question requiring consideration pertains to the age of superannuation of Lekhpals. The state seeks to retire them to attaining the age of 58 years. The petitioners claim is that they are entitled to continue till they attain the age of 60 years.

For claiming 60 years as the age of their superannuation the petitioners rely upon Government orders whereunder posts have been categorised as Group-A, Group-B, Group-C and Group-D posts and also on the amended Fundamental Rule 56 whereunder the age of retirement for holders of Group-D posts appointed prior to 5th November 1985 has been fixed as 60 years. The petitioners assert that in view of their pay-scale they belong to Group-D posts and, therefore, under the amended Fundamental Rule 56 their age of superannuation would be 60 years.

The undisputed facts are as follows-

In pursuance of the recommendations of the first pay Commission, Government Order dated 4th September 1976 was issued by the State Government where by State employees were categorised into four Group-`A', `B', `C', and `D'. This categorisation was made on the basis of the maximum and minimum of the pay scale. Subsequently second pay commission was constituted. In pursuance of its recommendations Government order. dated 27th February 1982 was issued. In this Government order also classification of State employees into Group- `A', `B', `C', and `D' was maintained. Groups `A', `B', and `C' cover Gazetted posts and Group-D covers non-Gazetted posts. The post of Lekhpal is non-Gazetted. Therefore, Lekhpals would fall under Group-D.

Prior to 28th July, 1987 relevant portion of Fundamental Rule 56 read as follows:-

"56. (a) Except as otherwise provided in other clauses of this rule, the date of

compulsory retirement of a Government servant, other than a Government servant in inferior service, is the date on which he attains the age of 58 years. He may be retained in service after the date of compulsory retirement with the sanction of the Government on public grounds, which must be recorded in writing, but he must not be retained after the age of 60 years except in very special circumstances.

(b) The date of compulsory retirement of a Government servant in inferior service is the date on which he attains the age of 60 years. He must not be retained in service after that date, except in very special circumstances and with sanction of the Government.

(c) Notwithstanding anything contained in clause (a) or clause (b), the appointing authority may, at any time, by notice to any Government servant (whether permanent or temporary), without assigning any reason, require him to retire after he attains the age of fifty years or such Government servant may, by notice to the appointing authority, voluntarily retire at any time after attaining the age of forty five years or after he has completed qualifying service for twenty years.

(d) The period of such notice shall be three months:  
Provided that-

(i) any such Government servant may by order of the appointing authority, without such notice or by a shorter notice, be retired forthwith at any time after attaining the age of fifty years, and on such retirement the Government servant shall be entitled to claim a sum equivalent to the amount of his pay plus allowances, if any, for the period of the notice or, as the case may be, for the period by which such notice falls short of three months, at the same rates at which he was drawing immediately before his retirement;

(ii) it shall be open to the appointing authority to allow a Government servant to retire without any notice or by a shorter notice without requiring the Government servant to pay any penalty in lieu of notice:

Provided further that such notice given by the Government servant against whom a disciplinary proceeding is pending or contemplated, shall be effective only if it is accepted by the appointing authority, provided that in the case of a contemplated disciplinary proceeding the Government servant shall be informed before the expiry of his notice that it has not been accepted:

Provided also that the notice once given by a Government servant under clause (c) seeking voluntary retirement shall not be withdrawn by him except with the permission of the appointing authority.

By Notification dated 28th July 1987 Fundamental Rule 56(a) was amended. The amended provision reads as follows:-

56(a) Except as otherwise provided in other clauses of this rule, every Government servant shall retire from service on the afternoon of the last day of the month in which he attains the age of fifty-eight years. He may be retained in service after the date of retirement on superannuation, with the sanction of the Government, on public grounds, which must be recorded in writing, but he must not be retained after the age of 60 years except in very special circumstances:

Provided that a Government servant, recruited before November 5, 1985 and holding the Group 'D' post shall retire from service on the afternoon of the month in which he attains the age of 60 (sixty) years.

Explanation: The above proviso shall not be applicable in those cases where the status of a post/posts referred to in the above proviso, has been changed after February 27, 1982 and categorized in higher Group of post/posts.

There is no change in clauses (b), (c) and (d) reproduced above.

Under the above provision uniform age of retirement viz. 58 years, has been fixed for all state Government employees. This is the general rule contained in Rule 56 (a) but to this general rule exception has been made and this exception covers only a limited class of Group-D employees. This limited class covers those who were appointed on or before 5th November 1985. The age of retirement for this limited class is fixed as 60 years. All the petitioners were appointed prior to 5th November 1985 and, therefore, if Fundamental Rule 56(a) applies to them their normal age of retirement would be 60 years.

In the year 1958 the State Government promulgated the u.p. Lekhpal Service Rules, 1958 for short Lekhpal Rules. Rule 31 of these rules prescribes the age of retirement. Prior to 25th August 1967 the rule read as follows:-

"The age of retirement in the case of Lekhpals governed by conditions laid down in sub-paragraph 3(a), (b) and (c) of para 2 of G. O. no. 4434/I-B, dated April 27, 1953, shall be 60 years and in the case of other members of the service shall be the date on which he attains the age of 58 years. He may be retained in service after the date of compulsory retirement with the sanction of the State Government on public grounds which may be recorded in writing but he shall not be retained after the age of 60 years except under very special circumstances.

By notification dated 25th August, 1967 the above rule was amended and the amended rule reads as follows:-

"The age of retirement in the case of Lekhpals governed by conditions laid down in sub-paragraph 3(a), (b) and (c) of para 2 of G.O. no.4434/I-B, dated April 27, 1953, shall be 60 years and in the case of other members of the service shall be the date on which he attains the age of 58 years. He may be retained in service with the sanction of the State Government on public grounds which may be recorded in writing, but he shall not be retained after the age of 60 years except under very special circumstances:

Provided that -

(i) The appointing authority may, after giving at least three months previous notice in writing to the Lekhpal without assigning any reason retire him from service on the date on which he attains the age of 55 years or on any date thereafter to be specified in the notice;

(ii) a Lekhpal may, after giving at least three months' previous notice in writing to the appointing authority, voluntarily retire from service on the date on which he attains the age of 55 years or on any date thereafter to be specified in the notice:

Provided further that-

(i) the notice of voluntary retirement given under the first proviso by a Lekhpal against whom a disciplinary proceeding is pending or contemplated, shall be effective only if it is accepted by the appointing authority subject to the condition that in case of a contemplated disciplinary proceeding, the Lekhpal is so informed before the expiry of the notice;

(ii) the notice once given by a Lekhpal under the first proviso shall not be withdrawn by him except with the permission of the appointing authority.

Under the enamed rule 31 as well as the amended rule the normal age of retirement is 58 years. An exception has been made in fevour of a class of Lekhpals. The Lekhpals are those who are governed by the conditions laid down in paragraph-2 and in clauses (a), (b) and (c) of paragraph 3 of Government order date 27th April 1953. For such Lekhpals the age of retirement is 60 years.

From the above survey of rules and Government orders it would appear that both Fundamental Rule 56(a) and Rule 31 of Lekhpal service Rules prescribe two ages of superannuation, 58 years and 60 years. The situation in which the age of retirement would be 58 years or 60 years is differnt in each rule. The question now requiring consideration is whether the petitioners will be governed by the age of retirement prescribed in Fundamental Rule 56 (a) or that presecribed in rule 31.

Fundamental Rule 56(a) and the Lekhpal Service Rules both have been framed under the proviso to Article 309 of the Constitution. Both, therefore, have statutory force. Fundamental Rule 56(a) covers state servicers in general and Lekhpal service Rules cover a particular service, namely Lekhpal service. Now it is settled law that specific excludes the general. Therefore, Lekhpal Rules will prevail over Fundamental Rule 56(a) so are as the age of superannuation is concerned. Consequently the petitioners will be governed the age of retirement precribed in Rule-31 except these covered by Government order datede 27th April 1953, irrespective of the faet at the last whether they belong to Group `D' of State Government service or to any other group of state Government service.

In some writ petitions validity of Government orders classifying Government employees into four categories on the basis of their pay-scales has been challenged on the ground of being arbitrary and discriminatory and, therefore, violative of Article 14. Since the petitioners retirement is not based on those Government Orders, as held here in above, it is not necessary to examine the validity of these Government Orders. It may, however, be pointed out that in most of the writ petitions, the said Government orders have been relied upon for claiming that Lekhpals belong to category `D' of State Government service and, therefore, they would be covered by 60 years' rule of superannuation.

In none of the writ petitions benefit of Government order dated 27th April, 1953 referred to in Rule 31 of Lekhpal Rules has been claimed. In all the petitions 60 years has been pleaded as the age of superannuation on the basis that the petitioners belong to group `D' of State Government service. In writ petition No. 4190(S/S) of 1991, age of 60 years is pleaded on the basis on belonging to Group `D' post as well as on the basis of Rule 31 of the Lekhpal service Rules. There is, however, no assertion that the petitioner is covered by the conditions laid down in sub-paragraph 3(a), (b) and (c) of Government Order dated 27th April, 1953. As already noticed, only those Lekhpals retire under Rule 31 on attaining the age of 60 years, who are governed by the said conditions laid down in Government Order dated 27th April, 1953.

In view of the above, all the writ petitions fail and are hereby dismissed, but without any order as to costs. Interim orders shall stand vacated.

M/s. Damodar Engineering & Construction & Co. v. Board of Trustees...Calcutta S.C.335

Sowear regarding the property in dispute. He know that the appollants had paid the total decretal amount to his master Chunilal Sowear. Without disclosing all these facts, he filed the suit for the partition of the property on the ground that he had purchased the property on his own behalf and not on behalf of Chunilal Sowear. Non-production and even non-mentioning of the release deed at the trial tantamounts to playing fraud on the court. We do not agree with the observations of the High Court that the appellants-defendants could have easily produced the certified registered copy of Exhibit B-15 and non-suited the plaintiff. A litigant, who approaches the court, is bound to produce all documents executed by him which are relevant to the litigation. If he withholds a vital document in order to gain advantage on the other side then he would be guilty of playing fraud on the court as well as on the opposite party.

D. We, therefore, allow the appeal set aside the impugned judgment of the High Court and restore that of the trial court. The appellants shall be entitled to their costs which we quantify as Rs. 11,000/-

\*\*\*\*\*

JT 1993 (6) S.C. 335

M/s. Damodar Engineering & construction & Co.

V

The Board of Trustees for the Port of Calcutta  
Special Leave Petition (Civil) No. 6888 of 1993

M.N. VENKATA CHALIAH, CJI

S.C. AGRAWAL &

DR.A.S. ANAND,JJ.

Dt. 16-11-1993

ARBITRATION ACT, 1940

Sections 5, 11 and 33 - Challenge to reference to the arbitrator and his removal. Supreme Court in SLP vide order dated 23.7.1990 had directed for payment of a sum in full and final settlement. While proceedings for setting aside of arbitral award were pending, the petitioner invoked arbitration clause for the second time and the same was disallowed by the High Court - SLP dismissed.

#### ORDER

1. By this petition, the petitioner, as proprietor of M/s. Damodar Engineering & Construction Company, is seeking special leave to appeal against the judgment dated July 17, 1992 of the learned Single Judge of the Calcutta High Court where by the application filed by the respondent, namely, the Board of Trustees for the Port of Calcutta, challenging a reference to an arbitrator and for removal of the arbitrator under Sections 5, 11 and 33 of the Arbitration Act, 1940 (hereinafter referred to as 'the Act') has been allowed and the reference has been superseded and the appointment of the arbitrator, (respondent No.2 in the said application of the respondent), was revoked.

2. The petitioner entered into a contract with the respondent in the year 1976 for construction of a permanent road between Ranichak and the Main Feeder

S.C. 334

vantage of or make a point of their own acts of omission or negligence or carelessness in the conduct of their own defence".

5. The High Court further held as under:-

"From this decision it follows that except proceedings for probate and other proceedings where a duty is cast upon a party litigant to disclose all the facts, in all other cases, there is no legal duty cast upon the plaintiff to come to Court with a true case and prove it by true evidence. It would cut at the root of the fundamental principle of law of finality of litigation enunciated in the maxim 'interest re publica est finis litium' if it should be held that a judgment obtained by a plaintiff in a false case, false to his knowledge, could be set aside on the ground of fraud, in a subsequent litigation"

6. Finally, the High Court held as under :-

"The principle of this decision governs the instant case. At the worst the plaintiff is guilty of fraud in having falsely alleged, at the time when he filed the suit for partition, he had subsisting interest in the property though he had already executed Exhibit B-16. Even so, that would not amount extrinsic fraud because that is a matter which could well have been traversed and established to be false by the appellant by adducing the necessary evidence. The preliminary decree in the partition suit necessarily involves an adjudication though impliedly that the plaintiff has a subsisting interest in the property."

7. The High Court, in our view, fell into patent error. The short question before the High Court was whether in the facts and circumstances of this case. Jagannath obtained the preliminary decree by playing fraud on the court. The High Court, however, went haywire and made observations which are wholly perverse. We do not agree with the High Court that "there is no legal duty cast upon the plaintiff to come to court with a true case and prove it by true evidence". The principle of "finality of litigation" cannot be pressed to the extent of such an absurdity that it becomes an engine of fraud in the hands of dishonest litigants. The courts of law are meant for imparting justice between the parties. One who comes to the court, must come with clean hands. We are constrained to say that more often than not, process of the court is being abused. Property grabbers, tax-evaders, bank loan-dodgers and other unscrupulous persons from all walks of life find the court-process a convenient liever to retain the illegal gains indefinitely. We have no hesitation to say that a person, whose case is based on falsehood, has no right to approach the court. He can be summarily thrown out at any stage of the litigation.

8. The facts of the present case leave no manner of doubt that Jagannath obtained the preliminary decree by playing fraud on the court. A fraud in an act of deliberate deception with the design of securing something by taking unfair advantage of another. It is a deception in order to gain by another's loss. It is a cheating intended to get an advantage. Jagannath was working as a clerk with Chunilal Sowcar. He purchased the property in the court auction on behalf of Chounilal Sowcar. He had, on his own volition executed the registered release deed (Exhibit B-16) in favour of Chunilal

S.P. Chengalvaraya Naidu (dead) by L.Rs. v. Jagannath (dead) by L.Rs. (Duldip Singh, J)  
S.C.333

came to know about the release deed and, as such, they challenged the application on the ground that non-disclosure on the part of Jagannath that he was left with no right in the

property in dispute, vitiated the proceedings and, as such, the preliminary decree obtained by Jagannth by playing fraud on the court was nullity. The appellants produced the release deed (Ex. B-15) before the trial court. The relevant part of the release deed is as under:-

"Out of your necretions and out of trust vested on me, purchased the schedute mentioned properties benami in my name through court auction and had the said sale confirmed. The said properties are in your possession and enjoyment the said properties should henceforth be held and enjoyed with all rights by you as had been done".

"So far. If any civil or criminal proceedings have to be conducted in respect of the said properties or instituted by others in repect of the said properties you shall conduct the said proceedings with out reference to me and shall be held liable for the profits or losses you incur there by. All the records pertaining the afore said properties are already remaining with you."

4. The High Court reversed the findings of the trial court on the following reasonings:-

Let us assume for the purpose of argument that this document, Exhibit B-15, was of the later category and the plaintiff, the benamidar, had completely divested himself of all rights of every description. Even so, it cannot be held that his failure to disclose the execution of Exhibit B-15 would amount to collateral or extrinsic fraud. The utmost that can be said in favour of the defendants is that a plaintiff who had no title (at the time when suit was filed) to the properties, has falsely asserted title and one of the questions that would arise either expressly or by necessary implication is whether the planitiff has a sub-sisting title to the properties. It was up to the defendants, to plead and establish by gathering all the necessary materials, oral and documentary, that the plaintiff had no title to the suit properties. It is their duty to obtain an encumbrance certificate and find out whether the plaintiff had still a subaisting title at the time of the suit. The plaintiff did not prevent the defendants did not use any contrivance, not any trick nor any deceit by which the defendants were prevented from raising proper pleas and adducing the neccessaary evidence. The parties were fighting at arm's length and it is the duty of each to traverse or question the allegations made by the other and to adduce all available evidence regarding the basis of the plaintiff claim or the defence of the defendants and the truth or false hood concerning the same. A party litigant cannot be indifferent, and after wards seek to show that the case of his opponent was false. The position would be entirely different if a party litigant could establish that in a prior litigation his opponent prevented him by an independent, collateral wrongful act such as keeping his witnesses in wrongful or secret confinement, stealing his documents to prevent him from adducing any evidence, conducting his case by tricks and misrepresentation resulting in his misleading of the Court. Here, nothing of the kind had happened and the contesting defendants could have easily produced a certified registration copy of Exhibit B-15 and non-suited the plaintiff, and, it is absurd for them to take ad

#### JUDGEMENTS TODAY

All these facts, he filed the suit for the partition of the property on the ground that he had pruchased the property on his own bealf and not on behalf of Chunilal Sowcar. Non-production and even non-mationing of the release deed at the trial tantamonthe is to playing fraud on the court. We do not agree with the observations of the High Court that the appellants-defendants could have early produced the certified registered copy of Exhibit B-

15 and non-suited the plaintiff. A ligant, who approaches the court, is bound to produce all documents executed by him which are bilcuant to the litigation. If he with holds quital document in order to gain advantage on the other side then he would be guilty of playing fraud on the court as well as on the opposite party. [Paras 7 and 8]

KULDIP SINGH, J.

1. "Fraud-avoids all judicial acts, ecclesiastical or temporal" observed Chief Justice Edward Coke of England about three centruies ago. It is the settled proposition of law that a judgment or decree obtained by playing fraud on the court is a nulity and nonest in the eyes of law. Such a judgment/decree-by the first court or by the highest court has to be treated as a nulity by every court, whether superior or inferior. It can be challenged in any court even in collateral proceedings.

2. Predecessor-in-interest of the respondents planintiffs filed application for final decree for partition and separate possession of the plaint-properties and for mesne profits. The appellants-de-fendants contested the application on the ground that the preliminary decree, which was sought to be made final, was obtained by fraud and as such, the application was to be dismissed. The trial judge accepted the contention and dismissed the application for grant of final decree. The respondents-plaintiffs went in appeal befor the High Court. A Division Bench of the High Court went through plethora of case-law and finally allowed the appeal and set aside the order of the trial court. This appeal is by way of certificate granted by the High Court.

3. One Jagannath was the prdecessor-in-interest of the respondents. He was working as a clerk with one Chunilal Sowcar. Jagannath purchased at court auction the properties in dispute which belonged to the appollants. Chunilal Sowcar had obtained a decree and the court sale was made in execution of the said decree. Jagannath had purchased the property in the court auction on befall of Chunilal Sowcar, the decree-holder. By a registered deed dated November 26, 1945 Jagannath relinquished Chunilal Sowcar. Menu while, the appellants who were the judgment debtors had paid the total decretal amount to Chunilal Sowcar. Therafter, Chunilal Sowcar, having receive the decretal amount, was no longer entitled to the property which he had purchased through Jagannath. Withourt disclosing that he had executed a release deed in favour of Chunilal Sowcar, Jagannath filed a suit for partition of the property and obtained a perliminary decree. During the pendency of the suit, the appellants did not know that Juagannath had no locus standi to file the suit because he had already executed a registered relase deed, relinquishing all his rights in respect of the property in dispute, in favour of Chunilal Sowcar. It was noly at the hearing of the application for final decree that the appellants ----- tion between renewal and fresh grant then all licensees were on same footing and the attempt to pick and choose the appellants, in our opinion, was contrary to rules without any valid justification.

6. For these reasons appeals arising out of special leave petition nos. 2310-17/93, 3391/93 and 4152/93 ar directed to be tagged with Civil Appeal Nos. 4708-12/89.

7. Civil Appeal No. 6042 of 1993 arising out of S.L.P. (Civil) No. 5808 of 1993 is allowed. The respondents are restrained from interfering in carrying on of appellants as FL-3 licensees subject to complying with other conditions and payment of annual rental proportionately till their application for grant of licence ar decided on merits as directed by this Court on 1st March, 1993 without adverting to order dated 9th November 1992 or till

the policy decision is enforced uniformly. Parties have to bear their own costs.

KULDIP SINGH &

P.B. SAWANT, JJ.

Dt. 27-10-1993

## PRACTICE AND PROCEDURE

Decree Preliminary decree obtained by playing fraud on the court- A BC- gant who with holds a vital document in order to gain advantage on the other side then he would be guilty of playing fraud on the court as well as on the opposite party. A person, who's case is based on falsehood can be summarily thrown out at any stage of the litigation.

## HELD

We do not agree with the High Court that "there is no legal duty cast upon the plaintiff to come to court with a true case and prove it by true evidence". The principle of "finality of litigation" cannot be pressed to the extent of such an abstrdity that it becomes an engine of fraud in the hands of dishonest litigants. The court of law are mean for imparting justice between the parties. One who comes to the court moust come with clean-hands. We are constrained to say that more often than not process of the court is being abused. Property-grabbers, tax-evaders, beand-loan-dodgers and other unscrupulous persons from all walks of life find the court- process a convenient lever to retain the illegal-gains in-definitely. We have no hesitation to say that a peson, who's case is based on false hood, has no right to approach the court. He can be summarily thrown out at any stage of of the litigation.

....A fraud is an act of deliberate deception with the design of securing something by taking unfair advantage of another. It is a deception in order to gain by another's loss. It is a cheating intended to get an advantage. Jagannath was working as a clerk with Chunilal Sowcar. He purchased the property in the court auction on behalf of Chunilal Sowcar regarding the property in dispute. He knew that the appellants had paid the total decretal amount to his master Chunilal Sowcar. With out disclosing

IN THE SUPREME COURT OF INDIA  
CIVIL APPELLATE JURISDICTION  
CIVIL APPEAL NO.OF 1993  
(Arising out of SLP (C) No. 15374 of 1992)  
State of U.P. & Ors. ..Appellants  
Versus  
Hausila Prasad Yadav & Anr. ..Respondents

ORDER

Delay condoned.

Special leave granted.

Hausila Prasad Yadav, respondent 1, was appointed as collection-Amin by the Sub Divisional Officer, Amethi by his order dated January 31, 1989. His services were, however, terminated by the order dated April 3, 1989. He challenged the order of his termination by way of writ petition under Article 226 of the Constitution of India before the Lucknow Bench of the Allahabad High Court. Following its earlier judgment in Chandra Pakash Tewari and Ors. vs. Collector, Unnao and Ors. Writ petition No. 8330 of 1989 decided on February 15, 1991 the High Court allowed Yadav's writ petition in the following terms:

"The facts and law involved in the aforesaid writ petitions are indential to what were involved in writ petition No. 8330 of 1989 decided on 15.2.1991, hence, the petitioners will also be entitled for the benefit of the order passed in writ petition No. 8330 of 1989."

This appeal by the State of Uttar Pradesh is against the judgment of the High Court.

We have heard learned counsel for the parties. Learned counsel for the State of Uttar Pradesh has vehemently contended that the facts involved in Writ Petition No. 8330 of 1989 were entirely different than the facts of the present case and as such the High Court was not justified in allowing Yadav's writ petition following the judgment of the High Court in Writ Petition No. 8330/89. We find force in the contention of the learned counsel.

The High Court allowed writ petition No. 8330/89 on the following reasoning:

"Undoubtedly two of the petitioners have worked in one or two fasals every year since 1976 to March, 1989. The remaining petitioners have worked in one of two fasals every commencing from 1983 to March 1989. Their names found place in the select list of 1982, which was prepared by the Selection Committee which fact has not been denied. Some of the persons whose names found place in 1982 list were regularised, but the services of the petitioners have not been regularised although it was urged that after March, 1989 seasonal collection amins were not appointed by the petitioners have asserted that 13 seasonal collection amins are still working. Names of few have been given who were much juniors to the petitioners were allowed to work. No explanation has been given in the counter affidavit as to why services of few of the persons whose names find mention in 1982 list have been regularised and why the services of petitioners have not been regularised..... although the Rules provide for the recruitment of Collection Amins from amongst the seasonal collection amins and a selection list was prepared in the year 1982 who have completed the work satisfactory for at least four fasals but the services of the

petitioners were not regularised.

The State Government realising the agony and misery of the seasonal collection amins rightly framed a policy on 3rd August, 1987 to regularise the services of those seasonal collection amins who have worked satisfactory of for more than four seasons....."

We have been taken through the writ petition filed by Yadav before the High Court. It is not disputed that Yadav was appointed as Collection-Amin in temporary capacity and his services were terminated on April 3, 1989. The order dated January 31, 1989 shows that Yadav had an earlier experience of working as Collection-Amin for a period of one year and three months. Yadav was not selected by any Selection Committee constituted under the Statutory Rules governing the appointment of Collection-Amins. In the writ petition before the High Court he has not named any person junior to him who has been appointed as Collection-Amin on regular basis superseding his claim. He has not claimed that he is eligible to be appointed on regular basis in terms of the policy decision of the State Government on the ground that he had worked satisfactorily for more than four seasons. Yadav has not given any details showing that he has been working earlier as Collection-Amin for several years as was the case of the petitioners in Writ Petition 8330/89. It is thus obvious that the case set up by Yadav before the High Court was not identical to that of the petitioners in Writ Petition No. 8330/89. We are constrained to observe that the High Court in utter oblivion of the facts of the present case allowed the writ petition mechanically in terms of its earlier judgment.

We, therefore, allow the appeal, set aside the judgment of the High Court and dismiss the writ petition filed by Hausila Prasad Yadav before the Lucknow Bench of the Allahabad High Court. No Costs.

.....J.  
(Kuldip Singh)

.....J.  
(N.P. Singh)

New Delhi,  
April 16, 1993.

Writ Petition No. (S.S.)5012/1994  
RajeshGupta Vs. StateofU.P.&Others  
Dated of Order ::: 28th of October, 1994.

PRESENT

HON'BLE MR. JUSTICE S.K. KESHOTE

Shri A.P. Singh, for the petitioner.

Shri S.C. Yadav, Standing Counsel, for the respondents.

Having heard the learned counsel for the parties. I am satisfied that no case for interference is made out by the petitioner. Undisputedly, it is a case where the petitioner has been given ad-hoc appointment. The prayer which has been made by the petitioner for issuance of a writ of mandamus to the respondents to allow the petitioner to continue in service with all the benefits and to regularise his services against available vacancies and not to terminate the services so long his case for regularisation is not considered, cannot be accepted for more than one reasons. Firstly, merely by ad-hoc appointment, the petitioner has not acquired any right to continue on the post. Secondly, the services of the petitioner have not been terminated so far and, as such, no cause has been accrued to him to extend the prayer relates to restrain the respondents from terminating of his services. So far as the regularisation is concerned, that right can only be there in case there is some statutory provision confirming such right upon the petitioner.

Shri A.P. Singh, learned counsel for the petitioner has argued that U.P. Collection Amins Service Rules, 1974 regulated the appointment and service conditions on the post of Collection Amins. These Rules have been amended vide U.P. Collection Amins Service (Vth amendment) Rules, 1992, and under the amended Rules a right is being accrued to the petitioner for regularisation of the services. The reference has been made to the decision of this Court in the case of Ram Achal Gupta Vs. State of U.P.

I have considered the arguments of the learned counsel for the petitioner. In the case of Ram Achal Gupta Vs. State of U.P. (supra) the Rules as amended in the year 1992 has not been considered. The case of Ram Achal Gupta has been decided on the basis of its own facts. Therein the question of legal rights of the petitioner has bot been considered and, as such, the decision in the said case cannot be said to be ratio on the questions which have been argued in the present case.

The Rules 1974 as amended in the year 1992 nowhere provides any right of regularisation to the Collection Amins who are working on ad-hoc basis. What these Rules provide is that 35% posts of Collection Amins are being reserved to be filled up from the collection Amins who have been appointed from time to time on ad-hoc basis. This reservation of 35% posts does not create any right to the petitioner to continue on the post and to get his services regularised. As and when the appointing authority decides to made the appointments on the post of Collection Amins, 35% posts are to be filled up for selection amongst the Collection Amins who were appointed on ad hoc basis from time to time. It is not the case that the selection has been made by the respondents and the petitioner has not been considered against the reserved quota. For appointment on the post of Collection Amins on substantive basis, the petitioner has to face the selection. What the petitioner really wants by this writ petition to get his regularisation of his services or continuation of service till his case for regularisation is considered, which cannot be

permitted as it may affect the rights of many other Collection Amins who worked on ad hoc basis from time to time. In case such a prayer is accepted then it will amount to violation of the provisions of Articles 14 and 16 of the Constitution. Right of consideration for appointment on substantive basis on the post of Collection Amins is there to the many of the Collection Amins who have been working from time to time on ad hoc basis for four faslies years.

In the result, this writ petition fails. Apart from this as and when the services of the petitioner is terminated then he has an alternative remedy available to him by way of reference petition under Section 4 of The U.P. Public Services (Tribunal) Act, 1976. Accordingly, the writ petition is dismissed. In the facts and circumstances of the case, the parties are directed to bear their own costs.

IN THE HIGH COURT OF JUDICATURE AT ALLAHABAD, LUCKNOW, BENCH,  
LUCKNOW.

Writ Petition No. 819 (SS) of 1995.

Shree Krishna Tripathi ...Petitioner.

Vs.

1. The State of U.P. through the Sachiv Revenu Department, Sachivalay, Lucknow.
2. The Board of Revenue, U.P. Lucknow through its Sachiv.
3. The Commissioner, Lucknow Division, Lucknow.
4. The D.M., Sitapur. -----opp. Parties.

WRIT PETITION UNDER ARTICLE 226 OF THE CONSTITUTION OF INDIA

Lucknow dated:-21.3.95

Hon'ble I.P. Vasisht. J.

Petitioner's grouse is against failure of the respondents to consider his claim for promotion to the post Nayeb Tahsildar even though his juniors have since been promoted. In a manner of speaking he complains discriminatory treatment. The learned Standing Counseal raised a preliminary objection with the submission that the petitioner has an effective alternative remedy by way of filling a Clain Petition before State Services Tribunal. The learned counsel for the petitioner countered with the argument that since the tribunal has no power to grant stay and similar petitions have been entertained by this Court of earlier occasions also, therefore, the bar of alternative remedy should not stand on his way.

In the absence of a challenge to the wires of the Statute creating the services Tribunal, the argument that it has no eith to decide such disputes, cannot be sustained. Simply because the tribunal is not empowered to grant stay against some proposed promotion, the petitioner cannot grieve that the Tribunal is in competent to decide right to seek promotion. In so far as entertainment of similar petitions by this court at an earlier stage is concered, since the facts and circumstances of those matters have not been brought to the notice of this court during the pendency of the instante petition, therefore that by itself would not take the sting out of the preliminary objection.

In view of availability of an alternative remedy to the petitioner, the petition is dismissed. There would however, be no order as to costs. In case the petitioner makes any representation to the respondents, they may howevre deal with the same and dispose them off in accordance with law.

Sd/-I.P. Vasisht.
